WHY uPVC?

AYTrex
FENESTRATION PRIVATE LIMITED
uPVC | ALUMINIUM | STEEL FABRICATION

uPVC (Unplasticized Polyvinyl Chloride) is an advanced material that offers excellent strength, insulation and durability.

High Thermal Insulation

Keep your space cooler in summer and warmer in winter.

Sound Insulation

Reduces outside noise for a peaceful environment.

Weather Resistant

Withstands extreme weather conditions.

Long Life & Low Maintenance

Termite proof, rust proof and easy to clean.

Eco Friendly

100% recyclable and lead free material.
